AS THOUSANDS WATCHED . . . bands, drill teams, military units, commercial and organization floats, and mounted units paraded for three and one half hours in the bright sunshine along Campbell avenue, to climax the three day festivities of the 62nd annual Old Settlers' Day celebrations. OVER 9000 PERSONS SEE OLD SETTLER DAY PARADE, CARNIVAL MONDAY

One of the newest cities in the Santa Clara Valley, Monday played host to more than 9000 valley residents at the oldest community celebrations in northern California when Campbell's 62nd Old Settlers' Day parade and carnival concluded a three-day celebration.

Thousands of spectators in holiday clothing basked in the warm sunlight to watch baton twirling majorettes at the head of colorful bands, cool displays of military precision, by army, navy and marine corps drill teams, prancing horses in glittering trappings from valley riding units, intricately designed organization and commercial floats, and ambitious juvenile entries designed to carry out the parade theme of "One Hundred Years of Progress".

Old Settlers' Day officials general chairman Laurance J. Hill, Parade chairman Ira H. Grim, and other officials of the sponsoring organizations, the Campbell Kiwans Club, the Campbell Chamber of Commerce and the city council unanimously agreed it was the most successful celebration in the history of the community.

A warm sun, a cloudless sky, and absence of wind made near-perfect parade weather.

Several cases of heat exhaustion were recorded during the celebration, Bob McClosky from the San Jose Red Cross reported. On hand, however, to care for emergencies was a completely equipped mobile Rer Cross first aid station and an ambulance. Trained personnel were also available to care for the large crowd. These included: Dr. Charles Short, Mrs. Ione Smith, R. N.; and first aid attendents, H. C. Ted Parker, Mrs. Lon Tanner, and ambulance driver Eddie Cantor.

With all the emphasis on progress, the celebration did not slight the old timers. On hand for the day's activities were more than 70 members of Campbell's pioneering families, who were escorted from their homes, for a special program of reminiscence, presided over by Campbell attorney Martin S. Walsh, and highlighted by an address from State Controller Robert Kirkwood, of Saratoga.

Following the special Old Settlers' Day program in the auditorium of Campbell High School, the oldsters assembled for a special luncheon in the high school cafeteria, and were accorded special seats of honor on the flag-decked reviewing stand to watch the parade which followed. Among the very oldest in the reviewing stand were Mrs. Jessie Campbell, daughter-in-law of Benjamin Campbell, born in San Jose in 1862 and a resident of Campbell since 1893; and Mrs. Charlotte Sutter, Campbell's oldest native resident, the daughter of Larry Willet, whose ranch adjoined that of Ben Campbell. Mrs. Sutter was born here in 1864.

Military units drew special comment from spectators and judges alike. There was the kilted bagpipe band of the sixth army lead by a towering drum major which received a trophy as a special award. There was the machinelike precision of the Naval Electronic Drill Team from the 12th Naval District

THEIR MAJESTIES . . . King Craig Morton and Queen Nancy Williams from Rosemary School, occupied honored positions atop a float in the Old Settlers' Day parade here Monday.

They were chosen from among contestants from all elementary schools in the area for work in promoting ticket sales to the Old Settlers' Day play, "Under the Gas Lights", presented by Campbell Footlighters.

City Council Meeting

ELECTION OFFICERS ARE NAMED; BIDS CALLED FOR FIRE TRUCK

That Santa Clara County plans the widening of Winchester avenue to four lanes from Stevens Creek Road all the way to Hamilton avenue with work starting next February was the message brought to the city council here Tuesday evening by Mark Thomas, city engineer. The extension from the city limits to Hamilton avenue would be conditional to the city acquiring necesary rights of way. These negotiations are to get under way according to council action..

Election officers were named Tuesday night by the council and bids were authorized called for a new fire truck; a new desk was purchased for the city clerk and an ordinance fixing council meeting times for every other Monday starting March 29th. (See page 5 for list of election officers and bid specifications for fire truck).

Walter Dahleen wants his property at 342-A West Winchester Road annexed to the city. He offered to dedicate frontage for a right of way, When cleared by the boundaries commission the council will act.

Peter Parlato has a site on the northeast corner of Hamilton and Winchester on which a use permit was granted in 1952 calling for a market and shops. Plans have since changed as they now want to use the corner for a General Petroleum service station and asked in a letter that the previous use permit be revoked so that a new one might be substituted. The city attorney and planning consultant will study the effect such change and report at the next meeting.

Because the civilian defense program is disorganized in Campbell as in many other smaller cities, the city advised state headquarters of inability to participate in a statewide drill on April 8.

It is getting close to budget time so Mayor Morton urged department heads get preliminary needs ready so the report can be filed and the tax rate set on time, June 30th.

Police Chief Locke reported that the Old Settler Day parade organized on side streets leading off Campbell avenue might have blocked emergency vehicles, pointing out that traffic funnels to the bridge on East Campbell avenue with no alternate side streets available. In future planning for parades he requested that safety be a prime consideration. On motion of Councilman Gomes, a set of rules regulating parades in the future will be drawn up as a pattern for organizations in charge of parades.

Shopping in Campbell today pays double with merchant stamps.

City Planners Grant Zone Change On Local Property

Change of zones, pending adoption of resolutions to that effect were grant for property of William C. Henley, and Eugene C. Kuehnis following the second public hearings on these matters when the Campbell Planning Commission met Thursday at the Fire House.

Henley applied for a change of zone on his property on the west side of Winchester road, west of Mission Way, while Kuehnis sought a zone change on property at Tract No. 1004 of Kuehnis Estates No. one an Tract two.

In other planning commission action Thursday, second public hearing on an amendement to the city zoning ordinance was scheduled for the meeting of March 18 at 7 p. m. at Campbell Fire House.

First public hearing on Ralph E. Weaver's application for a change of zone for certain lots in Hamilton Square subdivision to an R-2 classification was set for public hearing March 18th. Second public hearing on this matter was scheduled for April 1.

Planning commissioners also laid plans for another meeting with heads of area civic and social organizations concerning the forthcoming city-wide street traffic survey.

Mayor Morton To Seek Re-election To Council Post

Richard Morton, mayor of Campbell since incorporation in March 1952, today announced his candidacy for re-election to the council. Under his leadership the city council has developed efficient municipal services and attained a sound financial position with the lowest tax rate of any city in Santa Clara County.

Mayor Morton is vice-President of the Peninsula League of California League of Cities and represents Campbell on the directorate of Santa Clara County Sanitation District No. 4.

Homer Hyde, secretary of the Campbell Planning Commission and a native of Campbell is to be campaign manager.

Following is Mayor Morton's statement:

"After considerable deliberation and thoughtful reflection, I have decided that I will be a candidate for reelection to the Campbell City Council.

"My original intention was not to accept a candidacy. Our past term has been a rigorous one, and I felt that I had done my fair share toward our city attaining its rightful position among the communities of this valley.

"However, two considerations have caused me to arrive at my present decision: the fact that the job is not yet completed, and the considerable number of letters, telephone calls and personal requests that I have received from our citizens urging me to continue for an additional term.

"The present Council, I believe, has created the framework for a sound, constructive program, and has blue-printed the future steps that may be taken. But to insure a sound basis for our municipal government upon which future councils may govern in the manner desired by the people with all of its possible ramifications, I sincerely believe that our past and present program must be completed.

"I therefore take this opportunity to announce my candidacy for the office of Councilman of the City of Campbell, and to state that I will willingly accept the responsibilities of the office if I am re-elected."

RICHARD W. MORTON

NEW BOUNDARY LINES

Several of the established cities in Santa Clara County are stretching their boundary lines today in order to embrace areas which they deem to be potentially adequate for industries, business and new home subdivisions. At first observation this would seem a challenge to the tax structure in that roads and sewers would have to be considered and police and fire protection provided.

Yet these communities believe in their future so much that they feel the tax base will be such that these essentials may more easily be provided through boundary expansion. They sense that with substantial industry moving to within a twenty-five mile radius and hundreds of new home-seekers following, that area development will be a natural result. Industry follows industry, business follows business, and subdivision follow subdivision. That seems to be the way civic leaders in Mountain View, Sunnyvale, Los Altos and Los Gatos view their boundary potentials. It is the way Los Angeles was developed and the way San Jose has been moving.

Except for Milpitas, Campbell is the newest of the incorporated cities of Santa Clara County. The tide of area development is moving our way. How are we going to ride it?

A PARADE MARCHES BY

The sixty-second annual Old Settlers' Day celebration over the week-end was one of the most successful in the history of Campbell. The sun shone fondly along the path of the parade on Monday as some nine thousand onlookers waited two hours for the century of pageantry to move along.

There was a centralization of community interests necessary to make the affair successful. Committee leaders said yesterday that it must have been a success, for there has not yet been a single complaint about the way it was conducted.

COMING UP— HELICOPTERS

Sometime in October if everything goes according to schedule, there will be twenty Bell helicopters operating from the San Francisco airport, hopping about the bay area with a new kind of mail and commuter service.

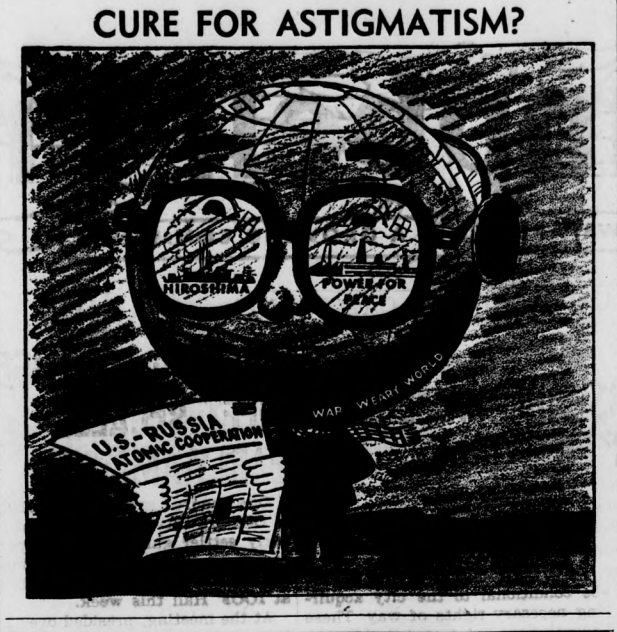
The Ricks Helicopter firm has leased one and a half acres at the airport as the main base for operations and will set up a $250,000 hangar and repair shops.

An application is now on file with Civil Aeronautics Board for a mail route in the bay area east to Sacramento and Stockton, north to Santa Rosa and south to Salinas and Monterey. That will be the first step. Next then will be a ten-minute taxi service between the airport and downtown San Francisco at rates competitive with surface transportation. There also will be some inter-community schedule for commuters.

LEGISLATURE ON TV

When the California lawmakers gather in Sacramento on March 1, their 12 million constituents will "sit in" with them through television. And predictions are that the Legislature is going to look mighty different from its usual appearance. It was found in previous TV broadcasts of legislative sessions in the East that attendance of members was much higher, they came better groomed, and —most important— they tended strictly to business. Well, we hope the boys photograph nicely. Can't you just imagine one legislator saying to another, "Tell me, John, is my makeup on straight?"

CURE FOR ASTIGMATISM?



The Campbell Gambol

CARNIVAL TIME Was fun time for some of those operating booths at the carnival Monday and it was profitable too for the organizations represented . . . . take the DeMolay boys for instance who set up a pie throwing booth and had crowds around all day and evening with club officers and members taking turns poking heads through a canvas to be targets of paper pie plates filled with a mess of flour and water thrown from a twelve foot toe line, many of the pies landing right square on the kisser — something over fifty pounds of flour was used in making the pies into 600 pie missles . . . . and the El Diablo Hi-Y group having one of their members perched on a plank over a tank filled with water and everytime a target at the end of the plank was hit it tripped something sending the occupant clothes and all into the tank . . . the Kiwanis Club, sponsoring organization for the Old Settler Day celebration for 1954 reporting the supply of hot dogs being all sold out by one o'clock and a mad rush to get a fresh supply . . . the hourly drawings for goods offered by local merchants holding people on the grounds until late evening. . . the long parade, estimated at three miles if all set up at one time and the stand on which the sixty or so old settlers were holding seats of honor, all these were highlights of the 1954 Old Settler Day activities in Campbell.

SENIOR CLASS at Campbell High gets what they go after even if it is the loan of a $27,000 television camera for use in their play, "Man Who Came To Dinner" . . . Joan Oeser got the assignment to look around for a television camera, no one seeming to know of its value, so Joan contacted KRON's "Science in Action" and got a promise for use of one for the duration of the play . . . . Campus Echo comments that if the camera is lost or stolen then "The Man Who Came To Dinner" will go down as the most expensive senior play in the entire United States.

ROBINS, MOCKINGBIRDS AND BEES are already making themselves known in the air as blossom time approaches the Santa Clara valley . . . robins hop about on new mown lawns, cocking a head for the sound of a worm or what ever sense they must have in knowing how and when to locate a worm . . . time after time the robin pecks into the lawn coming up with a long, pink worm . . . the mocking bird in the meantime sits high atop a tree singing away as if all is peaceful in the world . . . the bees laze about like advance men sampling nectars ready to pass the word on when the blossoms are sweetest . . . everywhere the roads are fringed with almond blossoms and soon the cherries, the prunes, peaches and apricots will burst out in full color as nature alone can pattern.

VISITING FRIENDS Over the week-end at Palm Springs was Emily McConnell, co-owner of Rachel's Shop in Campbell, and it was only a co-incidence that the President planned his vacation there at the same time.

Blossom Features For 13 Conventions

Special blossom bus tours are to be offered thirteen conventions scheduled to meet from now until April, the tours to be in the Campbell area.

The convention tour will likely include the San Jose Municipal Rose gardens, Santa Clara University, Winchester Mystery House then through Campbell to Blossom Tree hill, Los Gatos, then to Saratoga and Los Altos to Stanford University.

CAMPBELL HI-LITES

by Bob Olson

Every column wonders how many friends it has. Our editor says, "You'll never know until you offer every reader a dollar!" We don't have dimes to offer let alone dollars, but still we wonder. When Guy Farley admitted he was interested in our efforts, we said, "Oh, so you're one of our three readers!" Without a smile, he asked in all seriousness, "Who are the other two?"

Why don't some of you write in —if even just to criticize or disagree with us? Like the little boy in kindergarten, we'd rather be castigated than just ignored! Would you like more data or opinions on specific phases of education? Do you see teachers, students, or friends of the high school in any different light after we've tried to peer "inside them" for you? Do you realize how lucky our community is to have one of the top ten secondary schools in the whole country?

But then we're living in an age when it's chic to criticize the public high schools. They're still too old-fashioned, or they're so modern the kds are getting away with murder! They're not preparing young people for college, or they're too academic and not interested in the practical, workaday world. Kids don't spell as well as they used to, or it's a waste of time to read that old English literature! Ask these critics, who don't seem to know what they want, how long it's been since they sat in a high school classroom, or read any student writings, or talked things over with a high school boy. Have they, for example, discussed current history with a high school senior? If so, they'll find that young people today have some though provoking opinions on what to do about the Communist menace, Indo China, or a European army. And they have their own idea about who is responsible for this economic setback we've labeled a "recession." Ask them what they think of McCarthyism! We find all too few adults as intellectually stimulating as our high school students.

We often wish that some of you could be reading over our shoulders as we burn the midnight oil reading their literary criticisms, book reviews, or political essays. It always makes us certain that Campbell High is doing a good job encouraging young people to think for themselves. We know—for we have to continually keep reading, learning, and thinking ourselves, in order to be able to stay out ahead of them, directing the traffic of opinion into desirable channels. Every day we're impressed anew with the energy, interest, and spirit of the 165 secondary students we're trying to lead from a cacophony of divergencies into a harmony of cooperative growth. The sourpuss who thinks young people are going to the dogs knows only a few of the rotten apples. Most of the barrel is full of Rome beauties with but a few rough spots. And that's no applesauce!

The March PAGEANT Magazine has an article starting on page 149, erroneously titled, "The Best High School in America". Its authors claim that Grant High in Portland is tops because there are no extremes or extremists (we don't have any either!), it is situated in a "solid community" (can any community be more solid than Campbell?), and because it has no racial prejudice (we've yet to see any in two years at Campbell High; certainly our recent school elections prove that we practice democracy as well as talk about it). They go on to say that Grant High evidences teamwork, has leaders skilled in delegating responsibilities, and that this Portland "wonder school" has a policy of "talking things over" one can't believe possible until he sees it in operation. These things have so long been true of Campbell High that we don't even consider them extraordinary any more.

The Campbell area will never see major league basball, but it does have a major league high school, second to none in the country. When you read this article for yourself you won't find one activity listed that we don't also enjoy. And though, like Grant's, our emphasis is on scholarship—on basic education—we have a curriculum offering twice as many choices, and an extra-curricular program so successful that almost everyone not only has an opportunity to participate but does. As far as facilities go, Grant High in Portland is far behind us. They have no home football or baseball fields and only two tennis courts for 2,400 students. Grant boasts no swimming pool and an auditorium that will seat only 1/3 their student body.

PAGEANT Magazine considers this Portland High School "best in the country" because of its traditions. They brag about their snack bar as though it were their original creation and think it unusual that most student activities are also student-financed. In a day when we're "exchanging" teachers with England, France, and even far-off Japan, maybe we also need an exchange program with our neighbors in Oregon. Or perhaps one of us should write a national magazine article—for, after all, Campbell High is the best high school in America. And that's our tradition!

at Treasure Island, awarded a first prize trophy. The immaculate dress blue uniformed U. S. Marine drill team from the 12th Naval District Electronic's school executed the difficult "Queen Ann Salute" followed by a startling but effective volley over the heads of the judges.

And Campbell entries came in for a good share of the awards. California Prune and Apricot Association float of a Campbell garden scene consisted of a wrought-iron table and chairs alongside a prune tree in full bloom with 3400 hand made blossoms. Surrounding the scene was a hand doweled wooden fence made by Robert Sholz. Live tulips grew from real soil at the base of the prune tree. The float measuring 41 feet in overall length was drawn by a small English automobile completely covered, except for the windows, with aluminum foil.

Dorothy Rodriques, Eloise Parker, Angie Ciraulo, and Marie Testa rode the float. Myrrl Block and Dorothy Hoenig were in the car.

Campbell Union Elementary School bugle and drum corps received a special award. Lynn Levenberg, daughter of Mr. and Mrs. Budd Levenberg received a ribbon as a single riding entry. Her dad also participated in the parade with Kiwanis club officials. Cherry Lane's School entered a float titled "Education" which won a ribbon, as did St. Lucy's School Campbell scout troop 31, troop 32 from Campbell Methodist Church and troop 3 from Cambrian Park. Quito School's cub pack 35 received an outstanding award and cub pack nine received a first place trophy for their float "Progress of Schools".

Campbell Campfire girls, Blue Bird and Brownie groups also were awarded ribbons for their parade entries. Campbell Union High School cadets also took a first place trophy among marching units.

Campbell organizations made a clean sweep taking first, second, third and honorable mention awards. Bishop O'Dowd council, Knights of Columbus, First Baptist Church, Campbell Lions Club, Campbell Business and Professional Women's Club, and Campbell Rebekahs all took honors in organization entries.

Art Honorary Society, CUHS Future Farmers, San Tomas 4-H club and Cambrian 4-H clubs entries all received prizes.

Anthony Lopina Takes Bride

In a traditionally designed gown of lace over satin, featuring a dainty net yoke and chapel length train, complemented by a delicate coronet securing her finger tip veil, Miss Alica Paulina became the bride of Anthony Popina in recent vows exchanged before the flower appointed altar of St. Joseph's Church in Mountain View.

Christian Science Lesson-Sermon

That the remedy for hatred, selfishness, and greed is found in the love of God, as taught by Christ Jesus, will be emphasized at Christian Science services Sunday.

In the Lesson-Sermon entitled "Christ Jesus" passages read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include:

"If we wish to follow Christ, Truth, it must be in the way of God's appointing . . . All nature teaches God's love to man, but man cannot love God supremely and set his whole affections on spiritual things, while loving the material or trusting in it more than in the spiritual.

"We must forsake the foundation of material systems, however time-honored, if we would gain the Christ as our only Saviour" (326; 3-4, 8-14).

This passage from the Bible will also be among those read:

"How beautiful upon the mountains are hte feet of him that bringeth good tidings, that publisheth peace; that bringeth good tidings of good, that publisheth salvation; that saith unto Zion, Thy God reigneth" (Isaiah 52:7).

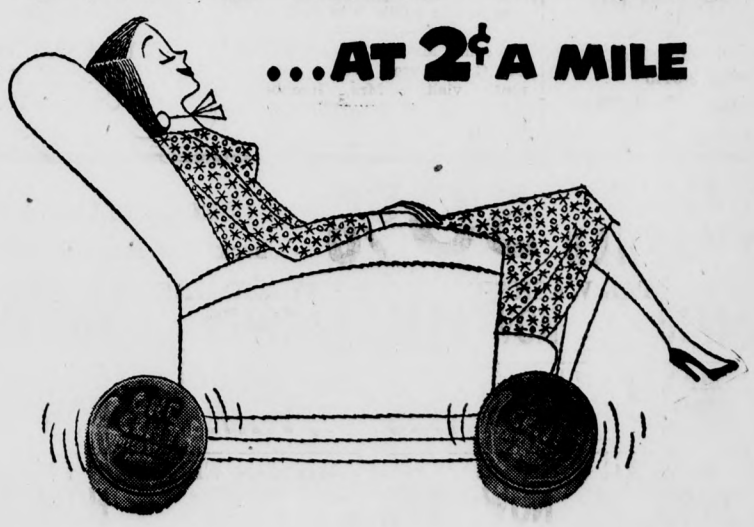
How to ride in comfort ...AT 2¢ A MILE



One ride in a Chair Car on our modern streamliners will show you how delightfully comfortable train travel can be—and how inexpensive all this luxury is.

For about two cents a mile, on most roundtrip tickets, you get soft-as-a-cloud foam rubber seats...dust-free, draft-free air conditioning... no-glare fluorescent lighting...lots of leg room and move-around room ...extra large picture windows... feather-touch doors... spacious washrooms.

That's why we say that Chair Car travel on an SP streamliner is the most luxurious form of all low-cost transportation. Try it and see!

Freight gets a low-cost ride, too. On the average, we move a ton of freight for about 1½ cents a mile. We have more miles of line serving more Western cities and towns than any other railroad. So for fast, efficient and dependable freight service —whether carloads or l.c.l.—call our nearest agent.
